

Denman Marine Newsletter - November 2018

Hi, and welcome to the latest Denman Marine newsletter.

In this month's newsletter we have;

- Kaholo Stand-Up Paddle Boards
- July Special - Free Upgrade Kit with Kaholo Full Kit
- Customer Build Update
- Barton Marine - Quick Cleat
- Christmas/New Years Shutdown

If there is anything you would like to see in our future newsletters, discuss, query or order, please contact us via the [contact form](#) on our [website](#).

Kaholo Stand Up Paddle Boards

[Hayaari Marine's Kaholo 14](#)

Stand-Up paddle boards are becoming more and more popular because they're ridiculously fun, and can be an excellent workout at the same time. Fancy a relaxing stroll around the marina or along the coast? Why not on a [Kaholo stand up paddle board](#) that you have built yourself, and see things from an entirely new perspective. Looking for a fun way to exercise? Simply bump up the intensity and enjoy a fun and rewarding workout.

Going for a paddle can be as relaxed or as exciting as you would like. If desired it can be a major workout, with every muscle in your body in use as you ride over waves and work the long-handled SUP paddle. If taking a walk is healthy, taking a walk on water is healthy AND the view is better. Alternatively it can be as relaxing as a stroll on the beach.

It's taken five years and more prototypes than CLC care to count to refine the two Kaholo SUP boards. Working with surfing and paddle board guru Larry Froy of Gray Whale Trading in California, CLC created two beautiful hollow wooden boards with that rare

quality of being fast enough to race but stable enough for first-timers. Tracking is great and a fine bow with kayak-derived shaping lifts the Kaholo 12-6 and 14 up and over waves. The tail shape and twin fins facilitate surfing on long swells once your skills build up to that.

The Kaholos are okoume marine plywood, stitch-and-glued together, sheathed in fiberglass and epoxy, with a grid of bulkheads and stiffeners inside to make the boards stiff and light. With a week to spare you can have a completed board and be out on the water before you know it.

Starting to think about gifts? With the holiday season just around the corner, order your Kaholo kit as soon as possible to receive it before Christmas.

All Kaholo full kits ordered during November will receive a free upgrade kit (see November Special). You can find more information on our [Kaholo page](#). Otherwise please [contact us](#) if you would like to place an order.

Christmas/New Years Shutdown

In order for the team to spend some quality time with friends and family, Denman Marine will be closed for a few weeks over the Christmas/New Years period. Commencing Friday the 21st of December 2018, and re-opening on Monday the 14th of January 2019.

We look forward to working with you in the New Year!

Kind Regards,
The Denman Marine Team

NOVEMBER SPECIAL

Free Upgrade Kit with Kaholo Full Kit

With summer just around the corner, order your [Kaholo full kit](#) today and receive your free upgrade kit*.

The Kaholo upgrade kit consists of a deck plate with bag, Gore-Tex breather valve, valve base, and deck plug.

An indispensable accessory for your Kaholo. The deck plate with bag can be used to store your phone, keys, wallet etc. in a water tight compartment in the board itself.

The Gore-Tex breather valve and base replaces the stock breathing tube with a high tech, flush mountable valve. Simultaneously improving waterproofing and aesthetics.

The flush mountable deck plug for leash rope is both easy to manage whilst remaining small and compact which not only looks good, but is functional.

Place an order for your [Kaholo full kit](#) today to take advantage of this offer while it lasts.

*Offer valid from 1/11/18 till 30/11/18. Applicable to full kits only. Excludes wood only kits, bulkhead kits, as well as plans and manual packages. [Shipping](#) is tailored to suit individual orders and will be quoted separately.

Customer build update

Below we have some pictures that have been sent in during various stages of kit construction.

We are always thrilled to see your project during any phase of construction, so please [send us](#) in your pictures so that we may publish them in future newsletters for everyone to enjoy.

Barton Quick Cleat

Are you looking for a secure alternative for traditional cleats that are specifically designed for kayaks, water toys, paddleboards and fenders? The Barton Marine Quick Cleat is perfect for novices and seasoned mariners and takes the place of tying and releasing knots. It's made of nylon reinforced composite and secures braided lines up to 6mm with a working load limit of 13.5 kilos.

Sold in pairs, the Barton Marine Quick Cleat offers exceptional value. Easy to use, simply rotate the lever on top of the cleat, insert the line and release the lever which secures the rope. From securing fenders, gear, painter lines, buckets, boat gears or other gear, the Barton Marine Quick Cleat is designed to alter rope tension in one direction, but grips the rope firmly and securely in the other.

Barton Marine are currently testing new variations of the Quick Cleat for Inflatables, and a larger stainless steel version with greater load rates for a variety of uses on yachts and docks.

Safe Working Load : 13.5kg
Max Rope Diameter : 6mm

We can supply anything from Barton Marine's wide range of products. See [here](#) to view their range, otherwise please [contact us](#) to discuss your requirements.

Contact us

Please feel free to contact us at any time via our [contact form](#) to discuss your next boat or project.

You can find our previous newsletters [here](#).

All prices listed above are in Australian Dollars and include GST.
